

Q1 - Science - Science 2

What is the primary purpose of camouflage for animals?

1. To find food
2. To attract mates
3. To hide from predators
4. To communicate with others

Q2 - Science - Science 2

Which of the following is a solid?

1. Water
2. Ice
3. Milk
4. Juice

Q3 - Science - Science 2

What is the process called when animals move to a different place during certain seasons?

1. Hibernation
2. Migration
3. Adaptation
4. Camouflage

Q4 - Science - Science 2

Which animal is known for building dams in rivers?

1. Beaver
2. Rabbit
3. Deer
4. Fox

Q5 - Science - Science 2

What do we call the young one of a frog?

1. Tadpole
2. Caterpillar
3. Cub
4. Chick

Q6 - Science - Science 2

Which of these animals is known to migrate long distances?

1. Elephant
2. Penguin
3. Monarch butterfly
4. Kangaroo

Q7 - Science - Science 2

What is the main reason animals hibernate?

1. To escape predators
2. To find food
3. To survive cold winters
4. To raise their young

Q8 - Science - Science 2

Which of the following is a liquid?

1. Ice
2. Steam
3. Milk
4. Rock

Q9 - Science - Science 2

What adaptation allows chameleons to blend into their surroundings?

1. Migration
2. Hibernation
3. Camouflage
4. Mimicry

Q10 - Science - Science 2

Why do birds have hollow bones?

1. To keep them warm
2. To help them fly
3. To store food
4. To protect from predators

Q11 - Science - Science 2

Which part of the plant is responsible for making food?

1. Root
2. Stem
3. Leaf
4. Flower

Q12 - Science - Science 2

What is a baby butterfly called?

1. Pupa
2. Caterpillar
3. Tadpole
4. Nymph

Q13 - Science - Science 2

What do we call animals that only eat plants?

1. Carnivores
2. Omnivores
3. Herbivores
4. Insectivores

Q14 - Science - Science 2

What is the gas that plants take in to make food?

1. Oxygen
2. Carbon dioxide
3. Nitrogen
4. Hydrogen

Q15 - Science - Science 2

Which sense do fish use the most to find food?

1. Hearing
2. Sight
3. Smell
4. Touch

Answer Key

Q1: To hide from predators

Q2: Ice

Q3: Migration

Q4: Beaver

Q5: Tadpole

Q6: Monarch butterfly

Q7: To survive cold winters

Q8: Milk

Q9: Camouflage

Q10: To help them fly

Q11: Leaf

Q12: Caterpillar

Q13: Herbivores

Q14: Carbon dioxide

Q15: Smell
